## *History of the Common Council of the City of Indianapolis*

Indianapolis was established as a town in 1821. It was at this time that a commission, appointed by the legislature, selected this location as a site for a seat of government of the State of Indiana.

The town of Indianapolis conducted its affairs pursuant to the general laws of the state until 1832. In this year the town was incorporated and was governed by a board of five trustees.

In 1838, pursuant to a special act of the legislature, Indianapolis was re-incorporated and placed in the hands of its first town council composed of a president and six members.

The common council continued in a large measure to control the affairs of Indianapolis as a town and as a city under various so-called charters or grants of the legislature until 1891.

Under a special act of the legislature of 1891 for the city of Indianapolis, a somewhat different form of government was established. While the council continued to exercise broad control over the city's affairs, various executive departments of the city were provided, such as Public Works, Public Safety, Public Parks and Pub-

lic Health, conducted by boards appointed by the Mayor. These boards were granted specific powers and duties concerning the city's business previously exercised by the council through committees subject, however, in some cases to approval of the council in all matters of expenditure of money and appropriation of funds by the council.

For some time prior to 1891 the City of Indianapolis was divided into 25 wards represented by 25 ward councilmen. Their term of office was two years and they were eligible for re-election. At this time there was also a separate body operating in conjunction with the council called the Board of Aldermen, composed of ten Aldermen, representing five Aldermanic districts, two being elected from each district.

Under the 1891 act the Board of Aldermen was abolished and a common council of 21 members was established. Fifteen members were elected to represent 15 wards and six members were elected to represent the city at large.

This form of council continued to exist in Indianapolis under the general cities and towns act of 1905. The act of 1905, while often referred to as the Indianapolis Charter, is very largely a re-enactment of the 1891 Indianapolis Charter, modified to make the Indianapolis system applicable to all classes of cities in the state. The 1905 law increased the term of Mayor and councilmen to four years and prohibited re-election.

In 1909 a novel councilmanic law for Indianapolis alone was passed by the legislature. This law limited the number of councilmen to nine. The law provided for the nomination by each party of six candidates, one from each of six councilmanic districts. In the election, all of the voters of the city could vote for any nine candidates, and the nine receiving the highest number of votes would be elected. This law insured a minority representation in the Council of at least three members. In 1949 the legislature amended the statutes to permit councilmen to succeed themselves.

In 1969 the legislature enacted a law, popularly known as the "Uni-Gov Act," which consolidated the city and county into one governmental unit. The act further provided for the creation of an interim City-County Council, composed of the nine former members of the City Council and the five former members of the County Council, which will serve as the legislative body of the city and county until the new Council is elected in November, 1971, and takes office in January 1972. In addition to the regular council, there is a Special Police Service District Council and a Fire District Council made up

of councilmen from these special service districts which are essentially the old city limit boundaries of Indianapolis.

The new City-County Council will have twenty-five members elected from an equal number of single member councilmanic districts into which the county has been divided and four members elected at large by voters of the county.

Marion County Commissioners  
Marion County Auditor

Gentlemen:

On the occasion of my resignation, as Executive Officer for the Marion County Sheriff's Department, I would like to take this opportunity to express my appreciation for your cooperation and assistance in the past years.

It has been rewarding to me, to have worked with both minority and majority members of each office, and their staff, in the physical and financial growth of the Marion County Sheriff's Department. The citizens of Metropolitan Indianapolis have been very fortunate in having persons, such as yourselves, in a public position. Your support of law enforcement, at a time when the thin blue line was being attacked from every side throughout our country, has been an inspiration to each member of this department.

I hope to continue in public service in this community and will look

forward to seeing many of you on a personal and public basis. I look forward to supporting your programs, which are to the benefit of law enforcement and to the citizens of Marion County.

Very truly yours,

RONALD L. BRYANT

week for two weeks in The Indianapolis News and The Indianapolis Commercial, newspapers of general circulation published in the City of Indianapolis, and said notice shall also be posted in three public places in the City, as provided by The Indiana Code of 1971, 6-1-46-7 and 6-1-1-25.

In the event a remonstrance shall be filed by the owners of taxable real estate under the provisions of The Indiana Code of 1971, 6-1-46-7, then no further steps towards the issuance of said bonds shall be taken unless and until the City-County Council shall have determined that such remonstrance is insufficient. In the event an objecting petition or petitions are filed by taxpayers under the provisions of The Indiana Code of 1971, 6-1-1-25, then no further steps towards the issuance of said bonds shall be taken unless and until the State Board of Tax Commissioners shall issue its order approving the issuance of said bonds. In the event it shall be determined by the State Board of Tax Commissioners, or otherwise, that the whole amount of the bonds herein authorized shall not be issued, then the Controller shall be authorized to advertise and sell a lesser amount of bonds, and the bonds not issued and sold shall be the bonds of the longest maturity or maturities.

Section 5. Prior to the sale of said bonds the Controller shall cause to be published a notice of such sale once each week for two weeks in The Indianapolis News and The Indianapolis Commercial. Said notice or a summary thereof may, in the discretion of the Controller, be published one time in The Bond Buyer, a financial journal published in the City and State of New York. The date fixed for the sale shall not be earlier than seven (7) days after the last of the publications in the Indianapolis newspapers. Said bond sale notice shall state the time and place of sale, the purpose for which the bonds are being issued, the total amount thereof, the maximum rate of interest thereon, the time and place of payment, the terms and conditions on which bids will be received and the sale made, and such other information as the Controller shall deem necessary.

All bids for said bonds shall be sealed and shall be presented to the Controller at his office, and said Controller shall continue to receive all bids offered until the hour named on the day fixed in the bond sale notice, at which time and place he shall open and consider said bids. Bidders for said bonds shall be required to name the rate or rates of interest which the bonds are to bear, not exceeding seven per cent (7%) per annum, and such interest rate or rates shall be in multiples of one-eighth ( $\frac{1}{8}$ ) or one-tenth ( $\frac{1}{10}$ ) of one per cent (1%), and not

more than six (6) different interest rates shall be named by each bidder. All bonds maturing on the same date shall bear the same single rate of interest, and the interest due on any bond on any interest payment date shall be represented by a single interest coupon. The difference between the highest and the lowest rate specified in a bid shall not exceed one and one-half per cent ( $1\frac{1}{2}\%$ ). The Controller shall award the bonds to the highest responsible and qualified bidder. The highest bidder shall be the one who offers the lowest net interest cost to the City, to be determined by computing the total interest on all of the bonds to their maturities and deducting therefrom the premium bid, if any. No bid for less than the par value of said bonds, including accrued interest at the rate or rates named to the date of delivery, will be considered. The Controller shall have full right to reject any and all bids. In the event no acceptable bid is received at the time fixed in said notice for the sale of said bonds, the Controller shall be authorized to continue to receive bids from day to day thereafter for a period of not to exceed thirty (30) days, without readvertising, but during such continuation no bid shall be accepted which is lower than the highest bid received at the time fixed for such sale in the bond sale notice.

Prior to the delivery of said bonds the Controller shall be authorized to obtain a legal opinion as to the validity of said bonds from Ice Miller Donadio & Ryan, bond counsel of Indianapolis, and to furnish such opinion to the purchaser of said bonds. The cost of said opinion shall be considered a part of the cost of said project, and shall be paid out of the proceeds of said bonds.

Section 6. The Controller is hereby authorized and directed to have said bonds and coupons prepared, and the Mayor, Controller and Clerk are hereby authorized and directed to execute said bonds and the interest coupons to be attached thereto in the form and manner herein provided. After said bonds shall have been properly executed, the Controller shall deliver the same to the Treasurer of Marion County, ex officio Treasurer of the City of Indianapolis, and shall take his receipt therefor, and upon the consummation of the sale of said bonds the Controller shall then certify to the Treasurer the amount which the purchaser is to pay for the same; thereupon, the Treasurer shall be authorized to receive from the purchaser the amount so certified by the Controller and to deliver the bonds to such purchaser.

Any fractional remainder shall be disregarded under this formula.

7-2402. License Required—It shall be unlawful for any person, firm,

or corporation to operate a commercial parking facility within the Consolidated City without first obtaining a license for such commercial parking facility, or to operate a commercial parking facility after revocation or expiration of a license.

7-2403. Application for License—A license under this chapter shall be issued by the City Controller, only upon written application first approved by the Division of Code Enforcement. The application shall include the following information and any other pertinent information which the Division of Code Enforcement shall require:

Liability Insurance or Bond—As a requisite for renewing or issuing a license for the operation of a commercial parking facility, the applicant shall post or maintain with the City Controller, either an indemnity bond or a certificate evidencing a policy of liability insurance, executed by a bonding, surety or insurance company authorized to do business in the State of Indiana, in the sum of twenty-five thousand dollars (\$25,000), approved as to form by the City Corporation Counsel. This bond or policy shall be conditioned substantially in the following manner: That the licensee will indemnify and save harmless the City of Indianapolis, Indiana, its officers, agents and employees from any and all loss, costs, damages, or expenses, by reason of legal liability which may result from or arise out of the granting of such license, or the operation of such commercial parking facility for which a license is issued and that the licensee will pay any and all loss or damage, evidenced by a final judgment for such damage, including the theft of any motor vehicle, part or accessory thereof, or personal property stored therein, that may be sustained by any person who may claim redress for property damage or theft providing such results from the operation or maintenance of any commercial parking facility. The bond or policy of insurance shall be maintained in its original amount by the licensee, at the expense of the licensee, at all times during the period for which the license is in effect and shall be of the type where coverage shall automatically be restored to its original amount after each occurrence from which legal liability has arisen.

If two or more licenses are issued to the same person, firm or corporation, one such bond or policy of insurance may be furnished to cover two or more commercial parking facilities provided that it is in the amount of at least twenty-five thousand dollars (\$25,000) for each such commercial parking facility covered by such bond or policy of insurance. Any bond posted and maintained with the City Controller under this section shall be accompanied by good and sufficient sureties approved by the City Controller.

7-2405. License Fees—The license fee for each commercial parking facility shall be in accordance with the following schedule of capacities:

\$ 25.00

51 thru 100 vehicle capacity	\$ 50.00
101 or more vehicle capacity	\$100.00

7-2406. Issuance of License—Prior to the issuance or reissuance of a license under this chapter, the Division of Code Enforcement shall determine if the commercial parking facility complies with all of the provisions of this chapter, other applicable provisions of municipal ordinances, applicable provisions of zoning ordinances and restrictions and applicable provisions of state statutes and regulations. If all such provisions are met and proper application has been made, the Division of Code Enforcement shall so indicate, without undue delay, by preparing and delivering a certificate to the City Controller.

The City Controller shall issue such license to the applicant upon delivery of the certificate from the Division of Code Enforcement if he finds:

(A) The license fee has been paid. The City Controller may, however, issue a license to

(1) any person, firm or corporation operating a commercial parking facility without private profit for a charitable, educational, literary, fraternal or religious purpose; or

(2) any municipal corporation directly operating a commercial parking facility;

without the licensee having to pay any license fees or other charges required by this code. Such licensees are subject to all provisions of this code except those pertaining to fees;

(B) If the applicant is a person or partnership, the person or each of the partners must not, within the past three years, have had any license issued by the City of Indianapolis to operate a business revoked because of his conduct of the business or because of his violation of any law or regulation while conducting that business;

(C) If the applicant is a corporation, it must be organized and controlled by the laws of the State of Indiana or be authorized and qualified by its laws to engage in business in the state;

- (D) The applicant shall post and maintain with the controller, either an indemnity bond or a policy of liability insurance as required by section 7-2404 of this Chapter.
- (E) The applicant is not delinquently indebted to the City or County for such obligations as license fees or taxes except if the indebtedness is the subject of pending litigation. The controller may require applicants to state under oath that they do not violate this requirement.

All licenses shall be effective on January 1 (or the date of issuance of the license if that is later) and shall expire on the 31st day of December of the same year.

All renewals of annual licenses shall be applied for on or before November 15th of the year preceding the year for which the license is issued. Temporary licenses for some specific time or purpose shall be dated on or as of the date of issuance.

For any annual license issued on or after July 1st and before October 1st, one-half of the annual fee shall be paid, and for any annual license issued on or after October 1st, one-fourth of the annual fee shall be paid.

All license certificates shall include the name of the licensee and any other name under which the commercial parking facility is to be operated, the addresses of the commercial parking facility, the amount of the license fee, and the date of the issuance and expiration of the license.

7-2407. Temporary Commercial Parking Facilities—All sections of this chapter are applicable in full to temporary commercial parking facilities unless modified or exempted by this section.

The application for a temporary commercial parking facility license shall be made to the City Controller and shall meet the applicable requirements enumerated in Section 7-2406 of this chapter, and shall be applied for at least 30 calendar days prior to the anticipated first day of use. Such application shall, in addition to the requirements enumerated in Section 7-2406 of this chapter, also state the duration and reason for the temporary use. The license fee for each temporary commercial parking facility shall be 50% of the applicable annual license fee.

Furthermore, the following additional exemptions or modifications shall be effective:

- (A) The motor vehicle reservoir as required by Section 7-2417 shall be required except that conspicuous outlining with pavement paint shall not be applicable.
- (B) Section 7-2420 relating to drainage shall not apply;
- (C) Section 7-2416 (1) relating to surfacing shall not apply;
- (D) Section 7-2416 (B) relating to wheel guards shall be invoked at the discretion of the Division of Code Enforcement;
- (E) Section 7-2419 relating to signs required shall be modified to permit temporary signs and furthermore section 7-2419 shall not require the "first hour" rate to be posted on such sign unless hourly rates are charged.

7-2408. Obligation to Inform about Changes Occurring relative to Commercial Parking Facility during License Period—If changes occur relative to a commercial parking facility during the time a license issued pursuant to this chapter is in force of such nature as to make the information stated on the application inaccurate, the licensee shall supply corrected information in writing to the Division of Code Enforcement. If such corrected information is that the vehicle capacity of the commercial parking facility has been increased, the licensee shall pay an additional amount calculated according to the following formula:

$$\left( \frac{\text{fee required by license fee}}{\text{(new vehicle capacity - originally paid)}} \right) \left( \frac{\text{(number of full months left)}}{12} \right) \text{additional amount} = \text{licensee must pay}$$

If, however, the corrected information is that the vehicle capacity of the commercial parking facility has been reduced, the licensee shall be reimbursed an amount calculated according to the following formula:

$$\left( \frac{\text{license fee}}{\text{(originally paid - new vehicle capacity)}} \right) \left( \frac{\text{(number of full months left)}}{12} \right) \text{amount} = \text{reimbursed to licensee}$$

If the commercial parking facility business is terminated or the ownership is changed, reimbursement shall be made according to the following formula:

$$\begin{array}{rcl}
 (\text{license fee}) & (\text{number of}) & \text{amount} \\
 (\text{originally paid}) & (\text{full months}) & \text{reimbursed} \\
 (\text{-----}) & (\text{left}) & = \text{to} \\
 (\text{12}) & (\text{in year}) & \text{licensee}
 \end{array}$$

In no event, however, shall a licensee under these formulas be either required to pay an additional amount which is less than \$10.00, or be entitled to reimbursement in an amount less than \$10.00.

7-2409. Revocation of License—The City Controller shall revoke any commercial parking facility license upon delivery by the Division of Code Enforcement of its written certification that:

- (A) The licensee failed, after having been notified in writing and given a period of 20 days to do so, to correct an inaccurate statement of material importance in the application either which was inaccurate as originally made or which became inaccurate because of changes which occurred relative to the Commercial Parking Facility after the date of application, or
- (B) the licensee has knowingly made any false statement in the application, or
- (C) The licensee knowingly violates or knowingly permits or countenances the violation of any provisions of this chapter or of any other municipal ordinance applicable to the commercial parking facility, or
- (D) The licensee knowingly violates or knowingly permits or countenances the violation of any provisions of a zoning ordinance or variance condition applicable to the real estate on which the commercial parking facility is located, or
- (E) The licensee knowingly violates or knowingly permits or countenances the violation of any provision of any state statute or regulation applicable to the commercial parking facility, or

- (F) The licensee knowingly violates or knowingly permits or countenances the violation of any provision of any penal law or ordinance regarding theft, larceny or conversion of a motor vehicle or any personal property stored therein, or the operation of a motor vehicle without the owners consent.

The City Controller may revoke any commercial parking facility license if upon investigation and after a hearing he finds the licensee failed, after having been notified in writing and given a period of twenty days to do so, to properly maintain a bond or insurance policy as is required by Section 7-2404 of this chapter.

At least twelve days before the date of the hearing provided by this section, the licensee shall be sent by certified mail written notice of the date, place and nature of the hearing.

7-2410. APPEAL—Any person, firm or corporation aggrieved by any act or omission of the Division of Code Enforcement or City Controller relative to the licensing of a commercial parking facility, may appeal such action or inaction to the License Review Board (hereafter referred to as the "Board") as established by Section 7-111 of the Code of Indianapolis and Marion County, 1970. The appeal shall be a condition precedent to any other legal action taken by an aggrieved person, firm or corporation; however, the action of the Division of Code Enforcement or City Controller shall be suspended from the time that the appeal has been perfected by filing a written notice of appeal with the City Controller until a decision has been made on said appeal. In order to appeal to the Board the person, firm or corporation must send written notice of intent to appeal to the City Controller, by registered mail with return receipt or by personal service with a signed receipt. The notice to the City Controller must be received within twenty (20) days after the date of the act or knowledge of the omission from which the appeal is being taken.

Upon receipt of the notice to appeal the City Controller shall notify the chairman of the Board who shall schedule a meeting of the Board to hear the appeal within ten (10) days of the receipt of the notice to appeal.

The Corporation Counsel or his authorized assistant representing either the Division of Code Enforcement or the City Controller as is appropriate, shall present evidence at the hearing which supports the act or omission which caused the appeal to be taken.

The decision of the Board shall be final, and the decision together with the reasons therefore shall be delivered in writing to the person, firm or corporation taking the appeal, and a certified copy shall be delivered to the City Controller who shall keep all decisions on file in his office. All decisions shall become effective upon delivery to the City Controller.

7-2411. **USE OF LICENSE CERTIFICATE**—The licensee shall display the license certificate at a conspicuous place at the commercial parking facility.

No person shall alter, forge or deface a license certificate for a commercial parking facility.

A revoked license certificate for a commercial parking facility shall be promptly surrendered to the City Controller.

No person, firm or corporation shall possess a valid license certificate for a commercial parking facility unless that person, firm or corporation is the licensee or his agent.

A licensee shall not sell his license, loan or donate a license certificate or permit a person, firm or corporation not authorized by law to use the license certificate.

On the payment of a replacement fee of \$1.00 the City Controller shall provide a duplicate license certificate for any commercial parking facility, if the original license certificate is lost, stolen, destroyed or defaced.

7-2412. **Change of Business Location**—Any license obtained pursuant to this chapter may not be used by the licensee at a location other than that described on the application for license and for which the license was issued.

7-2413. **Transfer of License Prohibited**—Any license obtained pursuant to this chapter may not be transferred by the licensee.

7-2414. **Claim Checks and Return of Vehicle When Attendant Parking Occurs**—Where attendant parking is accomplished with regard to a motor vehicle, the licensee shall furnish the owner or operator of that motor vehicle a distinctive claim check which shall have print-

ed thereon the full name and address of the commercial parking facility and a number corresponding to a coupon placed upon the vehicle. The licensee shall not deliver any such motor vehicle without the proper claim check being presented, or without satisfactory proof of ownership of said motor vehicle. This provision shall not apply to owners whose motor vehicles are parked on a weekly or monthly fee basis.

7-2415. Parking Spaces and Aisles When Attendant Parking Does Not Occur—Where attendant parking is not accomplished with regard to a motor vehicle, the part of the commercial parking facility used for the parking of that vehicle shall have conspicuously marked parking spaces which shall open directly upon an aisle of such width and design as to provide safe and efficient means of vehicular access to such parking space. Motor vehicles shall not be parked in such aisles.

7-2416 Surfacing and Barriers—

- (A) The ground or floor surface of every commercial parking facility shall be covered with concrete, brick, stone slab, asphaltic pavement, or a similar durable and dust free surface which meets the approval of the Division of Code Enforcement. The ground or floor surface of the commercial parking facility shall be such as to provide a smooth, level surface for parking and shall be free of depressions, gaps, holes or similar surface aberrations. On due cause shown the Division of Code Enforcement may in writing allow the use, for a period of time not exceeding six (6) months after the commercial parking facility is opened, of a commercial parking facility which does not conform to this requirement.
- (B) The motor vehicle parking area in every commercial parking facility shall be enclosed by barriers except at places of entrance and exit. If such a motor vehicle parking and storage area abuts a building, barriers shall be erected to prevent motor vehicles from striking the building. Such barriers shall be sufficient to stop a motor vehicle rolling at a rate of five miles per hour. The Division of Code Enforcement, upon written request by the applicant shall have the power to modify or waive this requirement where it is deemed by the Division of Code Enforcement to be unnecessary and unreasonably burdensome.

## 7-2417 Entrances, Exits and Required Reservoir Area—

- (A) Each commercial parking facility shall have at least one entrance and exit (which may or may not be combined) which shall be adequate to afford safe and efficient ingress and egress to the commercial parking facility.
- (B) Each commercial parking facility shall have a motor vehicle reservoir area at each entrance at which a ticket or claim check is given, a fee is paid or the licensee takes physical control of the motor vehicle for the purpose of handling it. "Motor Vehicle Reservoir Area" is the area at the entrance of a commercial parking facility between the property line and the point ten feet beyond the point at which a ticket or claim check is given, a fee is paid or the licensee takes physical control of the motor vehicle for the purpose of handling it. Such motor vehicle reservoir area shall contain in the case of commercial parking facilities with a vehicle capacity of six through fifty motor vehicles, three 9' x 20' spaces and in the case of all other commercial parking facilities, four 9' x 20' spaces. The motor vehicle reservoir area shall be conspicuously outlined with pavement paint and shall not be used for the parking or storage of motor vehicles except when all parking spaces are filled. On good cause shown, the Division of Code Enforcement may in writing allow the use of a commercial parking facility which has a motor vehicle reservoir area which does not conform to the above requirements.

7-2418. Lighting—Lighting devices used to illuminate the commercial parking facility shall be so located, shielded and directed that they do not glare onto or interfere with street traffic or adjacent uses.

7-2419. Signs Required—At each commercial parking facility at which a fee is charged other than by parking meters, a permanent sign shall be maintained at a place visible from each entrance. Such sign shall show the following minimum information:

- (A) the "all day" rate, and
- (B) the "first hour" rate.

The figures and lettering showing the "all day" rate and the "first

hour" rate shall be of equal size and not less than four inches in height.

All signs required by this section must comply with all applicable zoning ordinances and restrictions, in addition to the requirements set forth above.

7-2420. Drainage—Any commercial parking facility constructed or placed in operation after July 1, 1971, shall be constructed with a drainage system adequate to prevent the free flow of water onto properties adjacent to the commercial parking facility or surrounding sidewalks or streets from the real estate on which the commercial parking facility is located.

7-2421. Landscaping Requirements for Commercial Parking Facilities Not in a Building—Any commercial parking facility constructed or placed in operation after July 1, 1971, in which motor vehicles are not parked within a building shall comply with the following landscape requirements. Any commercial parking facility that has been constructed before or is in operation on July 1, 1971, in which motor vehicles are not parked within a building shall not be altered or modified so as to put it in further conflict with these requirements. If, however, a provision of a zoning ordinance, variance grant or parole covenant imposes a more stringent landscape and screening requirement than is found in this chapter, the provisions of the zoning ordinance, variance grant or parole covenant shall be controlling.

#### (A) YARD REQUIREMENT

10% of the lot surface area shall be devoted to yard area. "Lot surface area" shall not be considered to include street right-of-way. Each yard shall be planted and adequately maintained in ground cover (which may include grass) and shrubbery or trees and shall be raised and defined by a six inch curb. The Division of Planning and Zoning, upon request by the applicant and upon receiving a suitable alternative plan which meets the general objectives of this provision, shall have the power to, in writing, modify or waive any landscape requirements which are deemed by the Division to be unfeasible or unreasonably burdensome.

Part of this yard area equipment shall be met by providing and maintaining a yard (buffer yard) at least five feet in

depths along each property line, except at places of entrance and exit, which is contiguous to a street or residential district. For the purpose of this section the term "street" shall mean all designated streets except for any street which is less than 30 feet in width and located within the square formed by North, East, South and West Streets.

An architectural screen may be permitted in lieu of the buffer yard upon approval of the Division of Planning and Zoning as to the design, material and placement of the architectural screen. The architectural screen shall be a wall or fence of ornamental block, brick, or combination thereof. For each linear foot of architectural screen the required number of square feet of yard area shall be reduced by two square feet.

#### (B) TREE REQUIREMENT

A minimum of one live tree of a 3" caliper size or larger for every 2500 square feet of lot surface area shall be planted and maintained. The trees shall be located in the yard area. Where an architectural screen is not permitted in lieu of a buffer yard one of the required trees shall be planted and maintained in the buffer yard for each fifty linear feet of buffer yard. The Division of Planning and Zoning, upon request by the applicant and upon receiving a suitable alternative plan which meets the general objectives of this provision, shall have the power to, in writing, modify or waive any landscape requirements which are deemed by the Division to be unfeasible or unreasonably burdensome.

7-2422. Attendant Booth—Attendant booths located at commercial parking facilities shall comply with:

- (A) all requirements stated in Title #5, Fire Code Rules and Fire Safety Regulations of the Municipal Code of Indianapolis, 1951, as amended;

- (C) all applicable zoning requirements.

Before constructing any new or altering any existing attendant booth,

complete plans for such proposed work shall be filed and approved as required by chapter 3 and 6 of the Building Code, Title 8 of the Code of Indianapolis and Marion County, 1970, as amended.

7-2423. Maintenance—

- (A) The licensee of a commercial parking facility shall keep surrounding sidewalks and driveways leading into the commercial parking facility reasonably free from dirt, water, ice, sleet and snow and in a safe condition for the travel of pedestrians.
- (B) The licensee of a commercial parking facility shall keep the commercial parking facility reasonably free of weeds, dirt, trash and debris.

7-2424. Forbidden Uses—

- (A) The licensee of a commercial parking facility shall not permit the dismantling or wrecking of any motor vehicle or the storage of any junk motor vehicle at the commercial parking facility.
- (B) The licensee of a commercial parking facility shall not permit the placing of literature or handbills in or upon a motor vehicle parked in the commercial parking facility.

7-2425. Unauthorized use or Removal of Motor Vehicle—It shall be unlawful for any licensee of a commercial parking facility to make or permit any private use or move or cause to be moved through or upon the streets or alleys in the Consolidated City any motor vehicle parked in a commercial parking facility unless the use has first been authorized by the owner or operator of the motor vehicle.

The licensee may, however, move a motor vehicle parked in a commercial parking facility at the end of the regular business day if the following information is conspicuously posted at the commercial parking facility:

- (A) A statement indicating that it is the practice of the licensee to move motor vehicles from the commercial parking facility to another location;

(B) The time of day when such removal of motor vehicles occurs;

(C) The location to which such motor vehicles are moved.

7-2426. Notification of Claims for Damage or Loss—Every licensee shall within five days notify the Police Department of every claim the asserted value of which is one hundred (\$100.00) or more by reason of the loss, theft, or conversion of any motor vehicle or personal property contained therein, or parked at the commercial parking facility.

7-2427. Notification to Police of Unclaimed Vehicles—Every licensee shall immediately give written notice to the Police Department of the license number, make, and name of the owner, if known to him, of every motor vehicle left unclaimed in the commercial parking facility for a period of thirty consecutive days.

7-2428. Duty of Licensee to Permit Inspection—Every licensee shall permit inspections of the commercial parking facility by the Division of Code Enforcement at any reasonable time.

7-2429. Penalties—If operation of a commercial parking facility continues after revocation of the license, or, if the commercial facility operates after denial of the license as provided for in this ordinance, or, if no license is applied for, the owner of said commercial parking facility shall be subject to the penalties provided for in Section 1-601 of the Code of Indianapolis and Marion County, 1970, as amended.

**Section 2. Effective Date.** This ordinance shall be in full force and effect from and after July 1, 1971, subject to the transitional provisions of Section 3.

**Section 3. Transitional Provisions.** Any license issued pursuant to this chapter effective prior to January 1, 1972, shall be issued for the annual license fee and shall expire December 31, 1972. Any person, firm or corporation which operates a commercial parking facility on the date of enactment of this ordinance and/or which intends to operate a commercial parking facility on or after July 1, 1971 and prior to December 31, 1971, shall apply for a license requested by this ordinance on or before June 1, 1971.

Re: Proposed Bond Issue of Metropolitan  
Thoroughfare District

Dear Mrs. O'Laughlin:

Please find enclosed forty (40) copies of a proposed Resolution of the City-County Council approving a Bond Issue of the Metropolitan Thoroughfare District of Marion County. This Resolution needs approval of a majority of the Unified Council before we may proceed with the proposed Bond Issue. Such approval may legally be given at the same Council meeting where the Resolution is introduced, if the Council wishes.

All required proceedings for such Special District Bonds as these have been had by the Transportation Board, including the holding of an advertised public hearing and the receipt of a Petition from property owners. It the Council approves this Resolution, the next step is review by the State Board of Tax Commissioners.

Also enclosed with each copy of the Bond Resolution is a report of

1970 nonproperty tax receipts of the Department of Transportation showing that gasoline tax and other receipts may reasonably be expected to be much more than ample for repayment of these Bonds, without ever needing a property tax levy for that purpose.

Respectfully submitted,

Ronald L. Baker  
Assistant City Attorney, for  
Department of Transportation

Indianapolis-Marion County  
221 City-County Building  
Indianapolis, Indiana

Dear Tom:

To assist you in your deliberations regarding Special Resolution #23 "Authorizing submission of Model Cities Comprehensive Demonstration Plan and Second Year Program", I felt I should report the position I have taken since HUD requires the Mayor's action as well. HUD's purpose is to insure that local elected officials are involved and that Model Cities serves to increase the effectiveness of local government wherever possible. The language of the resolution itself merely authorizes the transmittal of the document to HUD. A second resolution will be requested at a later date to authorize the formal contract with HUD and the expenditure of funds.

Between now and then, I have said that the Model Cities Program should be reviewed by our normal budget process. This change is part of my recent attempts to strengthen the continuing planning and evaluation process of our program. Even as HUD is reviewing our submission we will be continuing this process. This will include a thorough project-by-project review of the Second Year Plan. In addition, I will be reviewing the plan in further detail in relationship to activities of other city departments and local agencies as their activi-

ties are highlighted through the annual budget process. Finally the CDA citizens structure and staff will be continuing the process of refining these projects, negotiating contract language and getting them in an execution-readiness status.

The Model Cities Program is on an accelerated implementation timetable which calls for this "Second Year" to begin September 1, 1971. Your timely decision on Special Resolution #23 wil lhelp us to maintain our growing momentum.

Sincerely,

RICHARD G. LUGAR  
Mayor

**Section 2. Special Meetings.** Special meetings may be held on call of the President or forty percent (40%) of the members of the Council, by giving written notice of the time and place of the meeting delivered to each member personally or sent by mail or telegram so that each member has at least seventy-two hours (72) notice of the meeting.

**Section 3. Statutory Meetings.** Statutory meetings shall be held as required by law upon such notice as is provided by the law requiring such meeting; and if such law requires publication of notice, no further notice need be given to members of the Council. As a courtesy to members, the Clerk shall endeavor to give members the same notice as these rules prescribe for special meetings.

**Section 4. The motion shall state the person or persons to be heard, the subject or subjects to which the discussion will be limited, and the time to be grant-

The motion shall be carried only if receiving a vote of a majority of the members of the Council. **Section 11. Words excepted to.** If a member is called to order for words spoken in debate, the member calling him to order shall indicate the words excepted to, and they shall be taken down in writing at the Clerk's desk and read aloud to the Council; but he shall not be held to answer, nor be subject to the censure of the Council therefor, if further debate or other business shall have intervened.

If, by law, a public hearing before the entire Council is required, the President shall state the date of such public hearing.

**Section 2. Committee Reports.** Whenever a committee acts to return a Proposal to the Council, the chairman shall so inform the Clerk stating in writing whether the committee recommends adoption or denial or reports without recommendation. The Clerk shall then place the Proposal upon the agenda of the Council under the order of business "Special Orders—Final Adoption of Proposals" in the order of receipt of notification of committee action.

**Section 3. Public Hearings.** Whenever a Proposal is such that by law a hearing must be held before the entire Council, the Clerk shall advertise the hearing on the date set by the President and place the Proposal on the agenda for that meeting under the order of business "Special Orders—Public Hearings" in the order of introduction.

**Section 4. Consideration for Final Adoption.** No Proposal for an ordinance or general resolution shall be considered for final adoption except when placed upon the agenda as a Special Order. Under the order of business "Modification of Special Orders," it shall be in order to move to advance any Proposal, then introduced

to "Special Order—Final Adoption of Proposals." If the motion be to advance a Proposal first introduced at the same meeting, such motion shall be carried only if eighteen members vote in the affirmative and the Proposal has been distributed in advance of the meeting.

- (1) The ordinance is adopted by unanimous consent of the Council members present and at least two thirds of all members are present and voting, or

- (2) The ordinance was initiated by a Director, Board or Commission and does not provide for an appropriation or tax levy or the incurring of general obligation indebtedness, or

- (3) The ordinance is for the reappropriation or transfer of funds previously appropriated by the annual budget ordinances.

- (b) Upon reaching the order of business "Special Orders—Public Hearings," the President shall inquire as to each Proposal if members of the public desire to be heard on that Proposal. If any appear wishing to be heard, the Council shall recess to a Committee of the Whole Council as provided in these Rules. If none desire to be heard or upon reconvening the Council, the President shall state that the question before the Council is: "Shall Proposal No. \_\_\_\_ be adopted?"

- (c) Upon reaching the order of business "Special Orders—Unfinished Business" and the order of business "Special Orders—Final Adoption of Proposals," the President shall state with respect to each Proposal in the order listed in the agenda that the question is: "Shall Proposal No. \_\_\_\_ be adopted?"

- (d) If after the President has stated the question on final adoption and the Council has postponed the final vote

or if on final vote the Proposal fails to obtain the necessary vote for adoption or defeat, the Proposal shall be placed on the agenda of the next meeting under the order of business: "Special Orders—Unfinished Business," unless it be referred back to committee or tabled or postponed to a time certain or indefinitely.

- (e) The presiding officer may state the question of final adoption jointly on more than one Proposal; but if any councilman objects, the roll call on adoption shall be taken separately on each Proposal.
- (f) When the President has stated the question on final adoption, he shall first recognize the chairman of the committee to which the Proposal was referred and then the councilman introducing the Proposal, if there be one. After those have spoken or declined to speak, any councilman may be recognized for debate or any other matter properly in order. If the committee has recommended that the Proposal be amended, the chairman shall move the amendment and the amendment shall be disposed of before further debate occurs except as to the amendment.

**Section 5. Amendments.** No amendment to a Proposal shall be in order unless in writing and copies presented to the President and Clerk. Any amendment may be referred, delayed, or otherwise disposed of without delay or prejudice of the Proposal itself. The adoption of any amendment not having the prior approval of the General Counsel as to form shall have the effect of tabling the Proposal until the next meeting.

**Section 6. Reconsideration after Veto.** If the Mayor vetoes any ordinance or general resolution of the Council, upon receipt of the communication from the Mayor so informing the Council, or at either of the next two succeeding regular meetings of the Council, any member may move to have the ordinance or general resolution made a special order of unfinished business. Upon coming to that order of business, the President shall state the question: "Shall the ordinance or resolution be effective notwithstanding the veto?" If the question receives the statutory majority of two-thirds ( $\frac{2}{3}$ ) of the members of the Council, the ordinance shall be in effect. If the veto is of one or more items of appropriation,

the motion to make a special order of business shall specify which items shall be considered for adoption notwithstanding the veto; and upon consideration of those items, any member may require that the question be separately put on any one or more of the vetoed items.
